Hello Cheryl –

Thank you. Has Stephanie transmitted the official transition notification to the PRPs? My understanding from our meeting on Monday was that she was ready to do so. Please let me know if not.

Thank you,
Viral

Hi Joan,

Thank you for the update regarding EPA's change in the RPM role for the South Andover Superfund site.

Welcome to the project Cheryl and congratulations to Stephanie on your new position!

Please let us know if you would like updates or a meeting with the MPCA project team regarding the work we have been doing in the area including the WDE Landfill site work and 1,4-dioxane and PFAS sampling.

Thank you,

Tim

Hi Tim,

This email serves to give MPCA management notification that we recently changed the remedial project manager assignment on the South Andover site. The previous RPM, Stephanie Ross, accepted a new job with our Office of Research and Development. As such we have assigned the South Andover site to Cheryl Kondreck, one of our newer RPMs, who comes with previous Superfund experience and has already managed some important work in Region 5 as an RPM. I told the project team to proceed with the needed notifications about the new RPM assignment.

We look forward to Cheryl's leadership on the site, and she and her supervisor, Viral Patel, have been informed about the high profile this site has in MN. Feel free to reach out if you have questions.
